EDUCATION

DIT University

B.Tech in Computer Science and Engineering: CGPA 7.24

Dehradun, Uttarakhand

August 2017 – June 2021

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS

Frameworks: React.js, Next.js

Tools: Git, Github, Jira, Trello, npm, Chrome DevTools, VS Code

Libraries: Redux-Toolkit, Context-API, Axios, React-Router-Dom, Tailwind CSS, Bootstrap, Material UI, Restful-APIs

EXPERIENCE

Infosys Limited

Jan 2025 – Present

Senior Associate Consultant

- Working on a retail project to develop and enhance the frontend of the application.
- Developing and optimizing UI components using React.js and Material-UI for an improved user experience.
- Collaborating with backend developers to integrate API functionalities efficiently.
- Ensuring responsiveness across different devices, enhancing user satisfaction.
- Resolving UI/UX issues to ensure smooth navigation and customer satisfaction.

HashStudioz Technologies

Sept 2023 – Dec 2024

Software Engineer

- Implemented **debouncing** for search in the hotel booking app, reducing API calls by **50%** and improving performance.
- Ensured responsive design across devices using **CSS, MUI, and Bootstrap**, enhancing user satisfaction and accessibility.
- Resolved bugs promptly, maintaining **100%** on-time resolution to meet project deadlines.
- Applied **Yup** and custom form validations, reducing data entry errors and improving data integrity.
- Developed an **admin portal** for hotel management, enabling partner/user role management, bookings, emails, PDFs, and cancellations, boosting efficiency.

Cognizant Technology Solutions

July 2021 – June 2023

Programmer Analyst

- Developed and optimized **React.js** components, enhancing user experience and frontend performance.
- Collaborated with designers and backend teams for seamless **frontend-backend** integration.
- Followed **TDD**, writing unit tests with **Jest and React Testing Library** to achieve **100%** code coverage.
- Troubleshoot and debugged issues efficiently, reducing defects by **20%**.
- Analyzed client requirements, implemented customizations, and provided solutions ensuring **100%** client satisfaction.

PROJECTS

Global Sanctions Manager (GSM) | *React.js, Context API, Axios, React-router*

- Built front-end components with **React.js** for managing financial transaction investigations.
- Used **Context API** for state management and **Tailwind CSS** for responsive UI.
- Collaborated in Scrum, conducted peer reviews, and ensured defect-free production deployments.
- Automated workflows by leveraging prior case data and decision patterns to reduce user effort.

Hotel Booking App | *React.js, MUI, Context API, Axios, React-router, Bootstrap*

- Developed a hotel booking system with **React.js** and integrated **Material-UI** for modern UI.
- Implemented **Redux Toolkit** for state management and **Axios** for API integration.
- Streamlined tasks with features like booking, cancellations, and email notifications.
- Optimized search with **debouncing**, cutting API calls by 40%.
