SUMMARY

- Achievement-oriented, techno-savvy professional offering nearly 2 years of rich and extensive experience in analysis, design, development, customization and implementation of software application.
- In-depth knowledge of Software Development Lifecycle (SDLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases with implementation) for maintaining proposed applications
- Skilled in analyzing information system needs, evaluating end-user requirements, custom designing solutions, troubleshooting for complex information systems management

EDUCATION

DIT University

B.Tech in Computer Science and Engineering

Dehradun, Uttarakhand

Aug. 2017 – Jun. 2021

EXPERIENCE

Congizant Technology Solutions

July 2022 – June 2023

Programmer Analyst

- Deployed React.js to develop frontend components and implement responsive designs for web applications
- Employed logical and analytical thinking to troubleshoot and resolve software bugs and issues
- Actively contributed to code reviews and incorporated feedback from senior developers to enhance code quality and maintain standards
- Participated in team meetings and contributed ideas to enhance overall project outcomes
- Analyzed and coordinated client's needs / enhancements, customization, software-related issue of clients to provide solutions
- Managed software development activities for business process mapping of the client

Congizant Technology Solutions

July 2021 – July 2022

Programmer Analyst Trainee

- Developed and maintained responsive web apps with React.js, HTML, CSS, and JavaScript, ensuring seamless user experiences across devices and browsers
- Worked to ensure pixel-perfect implementation of UI and maintain consistency throughout the application.
- Enhanced the styling of web app using CSS Libraries
- Provided assistance in modifying existing code, debugging issues, and other coding problems in an efficient and timely manner

PROJECTS

Food Ordering: | *React.js, React-Router, Redux Toolkit, Tailwind CSS*

[click to open](#)

- User can browse through different restaurants
- User can add items to cart from the menu of the restaurant page
- Used Swiggy's api to fetch realtime restaurant data

Video Streaming | *React.js, React-Router, Redux Toolkit, Tailwind CSS*

[click to open](#)

- Implemented Debouncing and Caching on search to minimize the api call
- User can search browse and watch any video
- Used Youtube's api to fetch realtime video data and search results

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS

Frameworks: React.js, Jest

Developer Tools: Git, Jira, Webpack, Parcel, Babel, npm, Chrome DevTools, VS Code

Libraries: React-Router, Redux-Toolkit, Tailwind CSS, Bootstrap, React Testing Library
